TP cloudPanels – Ideal for smaller applications

The TP cloudPanels are optimized for web applications and the perfect companion for WebVisu projects. Since WebVisu is already integrated in the Engineering Tool SPEED7 Studio, visualization via the new cloudPanel is easy as pie: It runs inside the PLC and is accessed by the cloudPanel via its optimized HTML5 browser. Rendering a cost effective visualization solution, that specially benefits smaller projects.

YOUR PLC HAS A WEBSERVER? PERFECT!

Then just let us show you the visualization via cloudPanels.

- optimized for web applications
- location independent use
- HTML5 browser for smooth web-applications experience
